Bringing Science to Life as a Classroom Presenter

ARE YOU:

- **Enthusiastic about science and technology?**
- **Keen to make a difference in the lives of children?**
- **Looking a fun, part-time position in which you can manage your own schedule?**

Scientists in School is expanding French-language programs in the Ottawa area! We are looking for outgoing French-speaking individuals who have a background in science, engineering or technology or who have teaching credentials.

Scientist in School is a not-for-profit organization with a mission to ignite scientific curiosity in children so that they question intelligently, learn through discovery, connect scientific knowledge to their world and consider a career in science.

As a classroom presenter you will earn an honorarium for delivering half-day, hands-on science workshops in elementary school classrooms, from kindergarten to grade 8. You will also be involved in preparing your classroom kit, attending training sessions, preparing your classroom materials and scheduling your workshop dates.

We are currently seeking individuals to join our team in Ottawa. If you are interested, please contact: ottawa@scientistsinschool.ca
